

**The A Level Biologist - Your Hub**

**5 ESSENTIAL  
PIECES OF  
WISDOM FOR  
EXAM TIME**

**Rock exams with a smile on your face**

# **1. FFS, GO TO THE LOO *BEFORE* THE EXAM**

You'll thank yourself for it when it takes you 5 minutes to remember the word fertiliser and write it down as the single word answer for that 2 mark question.

## **2. BRING A BOTTLE OF WATER/FLAVORED WATER WITH YOU AS WELL AS A SMALL CHOCOLATE BAR**

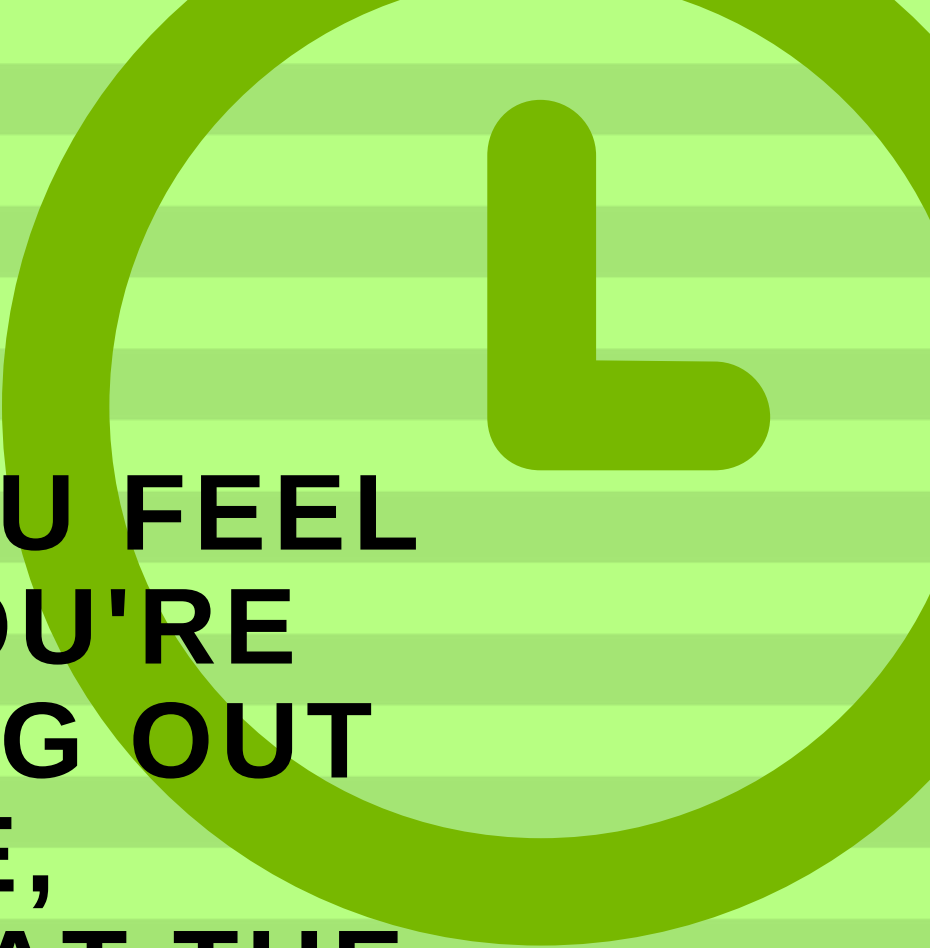

Taking frequent sips and the occasional snack break will be the perfect excuse for when you get a mind block after reading a question. Then you don't have to admit to yourself that you're having a mind block. Also, that thing about hydration and energy or something.

### **3. DO NOT KEEP STARING AT THE PERSON**

sitting in front/behind/next to you who you don't particularly like, and imagining that they might just do better than you.

# **4. IF YOU FEEL LIKE YOU'RE RUNNING OUT OF TIME, STARE AT THE CLOCK/WATCH FOR 30 SECONDS**

Let your eyes persuade your brain that time isn't moving forwards anymore. It's stopped, and now is the perfect time to sneak in a cheeky answer. Quick, before it starts moving again.

## 5. THE BEST TIP IS TO BE CONFIDENT

The only way to be confident is to have a good command of the content and knowledge.

Now that you've finished procrastinating by reading this list of tips in the hope that they'll magically get you an A\*, [start revising](#).
